

MAXLINER®

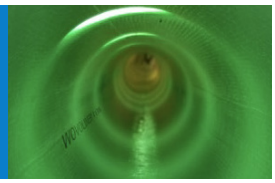

The Leader in Small Diameter CIPP Rehab Systems

THE INDUSTRY'S MOST COMPREHENSIVE SOLUTION, USING BEST-IN-CLASS MATERIALS AND EXCEPTIONALLY DEPENDABLE EQUIPMENT.

With our innovative lining system, you can deliver results that are **more effective than traditional dig-and-replace methods**. Every liner is produced under rigorous quality inspection standards to ensure superior consistency and performance.

You also have a choice of resins, each carefully matched to the requirements of the liner and your job specifications. The MaxLiner Tech Services team represents some of the **industry's most experienced professionals** — ready to train, troubleshoot, and provide field support every step of the way.

The MaxLiner System

LINERS & MAX CALTUBES

MaxLiner offers an assortment of liner options up to 12” in diameter to fit your project requirements.

- **Standard, Flexible, Transitional and Pre-wetout liner options**
- **Full range of calibration tubes**

RESINS

MaxLiner offers several different resin combinations to fit your project requirements.

- **Light, heat, and ambient cure resins for all your lining applications**

UNITED POINT REPAIR

We offer three different silicate resins designed for fast (Turbo), medium (Winter) and slow (Summer) cure times, depending on the season and/or project conditions.

- **3”-72” diameter pipe**
- **24” and 48” lengths**
- **Contains no VOCs, PFAs or styrenes**
- **Kit and bulk packages available**

SPEEDYLIGHT+ UV CURING TECHNOLOGY

Versatile LED CIPP Curing System for sewer laterals and small diameter mains. All-in-one design allows the system to deploy virtually anywhere. Control unit, power supply and cable reel are integrated in a single, portable package.

- **Powered by LED light technology**
- **Diameters: 2”-24”**
- **Navigates bends up to 90°**
- **Compatible with felt liners and GRP UV liners**

DANCUTTER

Dancutter is powerful and extremely flexible in 45° and 90° bends. Effectively cuts, grinds, and mills in diverse materials.

- **Improve productivity with highly portable system**
- **Operating range 3”-6”**
- **360° continuous rotation**
- **164 ft. supply hose**

INVERSION & CURING EQUIPMENT

Choose from MaxLiner’s lightweight and rugged line-up of liner drums, shooters, curing and calibration equipment to reline verticals and laterals from 2”-12”.

- **Drum and shooter options**
- **Air, steam, water and UV**
- **Horizontal and vertical applications**
- **2”-12”**

PICOTE CLEANING & COATING EQUIPMENT

Choose from PIcote Millers, and all their accessories, to the new Xpress Coating System.

- **Maxi, midi, and mini millers**
- **Chains, spiders, grinders and more**
- **Xpress System for 1.5”-12” pipes**
